

Céline Boéchat Vieira

PROJECT PORTFOLIO

International Project Coordination

•

Data Governance

•

Innovation Networks

Selected examples of project leadership, data governance, stakeholder engagement, and innovation ecosystem development across complex international collaborations.

01 AquaVitae

02 FAIR Data Governance

03 Innovation Networks

AquaVitae

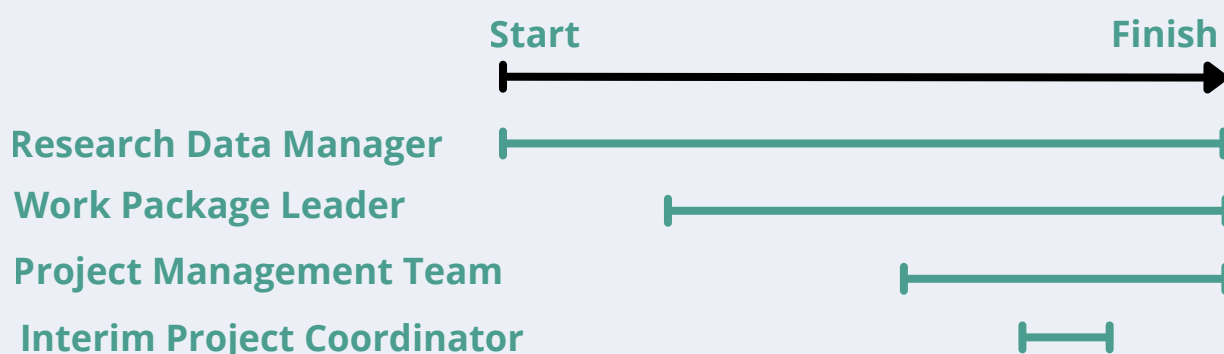

Sustainable low-trophic aquaculture across the Atlantic through international research and innovation.

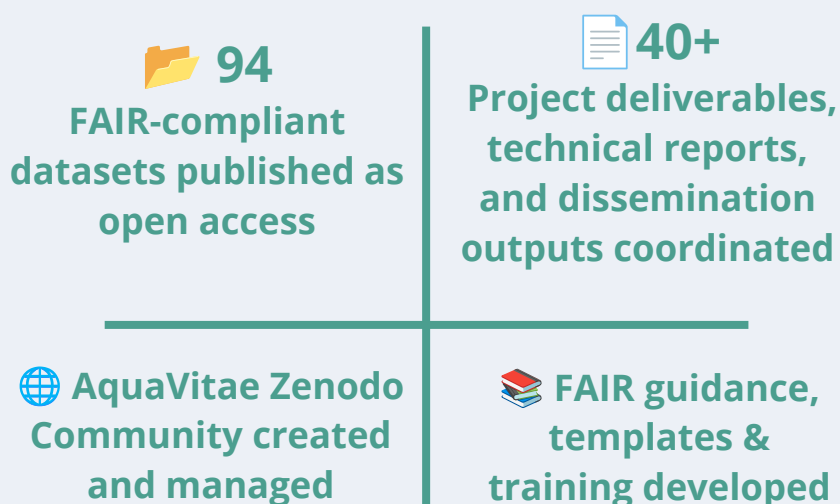

Horizon 2020 | 36 partners | 16 countries | €8M | 4.5 years

ROLE PROGRESSION

Progressively entrusted with increasing coordination, governance, and leadership responsibilities throughout the project.

KEY CONTRIBUTIONS & ACHIEVEMENTS

CORE COMPETENCIES

Project Coordination Research Data Management Data Governance Open Science
Stakeholder Management Technical Documentation International Collaboration

Professional Portfolio - Selected Projects | 01 AquaVitae

FAIR Data Governance & Open Science

Designing and implementing FAIR-compliant research data management systems across international research consortia.

5 EU-funded projects | 120+ partners | 24 countries

RESPONSABILITIES ACROSS PROJECTS

● Lead/Responsible

	Data Management	Open Access	Repository Management	Training & Guidance
FarFish	●			
ClimeFish	●			
EU-China SAFE	●	●		
AquaVitae	●	●	●	●
SeaMark	●	●	●	●

KEY CONTRIBUTIONS & ACHIEVEMENTS

160+

FAIR-compliant datasets published as open access

3

international FAIR/Open Science presentations

Norway • Faroe Islands • Brazil

2

Zenodo Community created and managed

FAIR guidance, templates & training developed

CORE COMPETENCIES

Research Data Management Data Governance FAIR Data Open Science
Technical Documentation Knowledge Management Training Metadata GDPR

Innovation Networks & Knowledge Platforms

Building national innovation ecosystems through stakeholder engagement, knowledge sharing, digital platforms, and collaborative networks.

2 Innovation Networks | 2 Knowledge Platforms | 70+ Stakeholders

RESPONSABILITIES ACROSS PROJECTS

● Lead/Responsible

	Low Trophic Aquaculture	Blockchain & Food Traceability
Proposal development		●
Budget management		●
Network coordination	●	●
Knowledge platform	●	●
Website supervision	●	●
Webcrawler training	●	●
Workshop organization	●	●
Report & dissemination	●	●

KEY CONTRIBUTIONS & ACHIEVEMENTS

2

National innovation networks established

2

Knowledge platforms powered by automated news aggregation

70+

Coordinated AltaNet's transition into Norway's first national low-trophic aquaculture network, including its inaugural event attended by 70+ stakeholders.

HIGHLIGHT

National media coverage including participation from the Mayor at the network inauguration

CORE COMPETENCIES

Stakeholder Engagement Knowledge Management Community Building
Workshop Facilitation Digital Platform Management Content Management
Science Communication Cross-sector Collaboration Strategic Partnerships
